## New England Erosion Control/Restoration Mix for Detention Basins and Moist

(00620)

BOTANICAL NAME	COMMON NAME	IND.
----------------	-------------	------

<i>Elymus virginicus</i>	Virginia Wild Rye	FACW-
<i>Festuca rubra</i>	Creeping Red Fescue	FACU
<i>Schizachyrium scoparium</i>	Little Bluestem	FACU
<i>Andropogon gerardii</i>	Big Bluestem	FAC
<i>Panicum virgatum</i>	Switch Grass	FAC
<i>Verbena hastata</i>	Blue Vervain	FACW
<i>Agrostis scabra</i>	Rough Bentgrass/Ticklegrass	FAC
<i>Aster novae-angliae</i>	New England Aster	FACW-
<i>Eupatorium maculatum</i>	Spotted Joe Pye Weed	FACW
<i>Eupatorium perfoliatum</i>	Boneset	FACW
<i>Juncus effusus</i>	Soft Rush	FACW+
<i>Scirpus cyperinus</i>	Wool Grass	FACW

PRICE PER LB.       \$34.00

MIN. QUANTITY:     3 LBS.

**TOTAL**               \$102.00

APPLY: 35 LBS/ACRE

1 LB/1250 SQ FT

MINIMUM QUANTITY: 3 LBS

The New England Erosion Control/Restoration Mix For Detention Basins and Moist Sites contains a selection of native grasses and wildflowers designed to colonize recently disturbed sites where quick growth of vegetation is desired to stabilize the soil surface. It is an excellent seed mix for ecologically appropriate restorations on moist sites that require stabilization as well as long-term establishment of native vegetation. This mix is particularly appropriate for detention basins that do not normally hold standing water. Some plants in this

mix can tolerate infrequent inundation, but not constant flooding. Always apply on clean bare soil. The mix may be applied by hydro-seeding, by mechanical spreader, or on small sites it can be spread by hand. Lightly rake, or roll to ensure proper seed to soil contact. Best results are obtained with a Spring or late Summer seeding. Early-Mid Summer seeding will benefit with a light mulching of clean weed-free straw to conserve moisture. If conditions are drier than usual, watering will be required. Late Fall and Winter dormant seeding require an increase in the seeding rate. Fertilization is not recommended. Preparation of a clean weed free seed bed is necessary for optimal results.

New England Wetland Plants, Inc. may modify seed mixes at any time depending upon seed availability. The design criteria and ecological function of the mix will remain unchanged.

Price is \$/bulk pound. FOB warehouse, plus S&H and applicable taxes.
